Famous Number Phrases

You may be surprised by how many number facts and phrases you know. When asked to complete the phrase, “_ quarters in a dollar,” you would quickly fill the blank with a 4. You probably recognize the title, “_ Fish, _ Fish, Red Fish, Blue Fish” and would be able to fill the blanks with 1 and 2.

Would it be as easy to complete the phrases if you were given the numbers and the only clue you were given for the words was their first letters? If you saw the phrase, “4 Q in a D,” could you figure out the missing words? Would you recognize “1 F, 2 F, R F, B F” as the title of a favorite book?

Challenge yourself to complete these number phrases. As an additional hint, the phrases are grouped in general categories.
