Thinking about enrolling your student in online school? Here are five steps to help you get started:

1. MAKE THE DECISION AS A FAMILY
   To find success, everyone in the family should support the decision. Students take more responsibility and parents commit to supporting their student through their day.

2. CHOOSE THE RIGHT SCHOOL
   Make sure the school is accredited and offers a wide range of courses and a proven curriculum developed by professional educators.

3. CHOOSE (OR BECOME) A LEARNING COACH
   Appoint an adult to build the weekly schedule, track attendance, communicate with teachers, and oversee a student as they complete their schoolwork.

4. COMPLETE THE ENROLLMENT CHECKLIST
   Gather your necessary documents for your student like birth certificates proof of residence, academic records, and more to ensure you meet the enrollment deadlines.

5. ESTABLISH A LEARNING ENVIRONMENT
   Design a learning space that is not only comfortable but inspires their creativity, helps them stay focused, and is appropriate for many types of learning activities.
